Vaccine Policy Statement

At Village Center Pediatrics we firmly believe that one of the most important services we can provide to our patients is vaccinations against life threatening diseases. We strongly agree with the American Academy of Pediatrics (AAP) and Centers for Disease Control (CDC) that childhood vaccines are critical to maintaining healthy children and communities. Our providers Kimberly Edgmon MD, Tammy Maschino MD, Susan White MD, Jessica Yocum MD, and Lauren Adams APRN-CNP have made the decision that the families we provide medical care for will need to fully vaccinate each patient. We understand that the choice to vaccinate may be a very emotional decision for some parents. We will do everything we can to educate you that vaccinating is the best thing you can do for your child. If arrangements to fully vaccinate each patient are not made then we are saddened that we will no longer be able to provide medical care for your family.

Sincerely,

Kimberly Edgmon, MD

Tammy Maschino, MD

Susan White, MD

Jessica Yocum, MD

Lauren Adams, APRN-CNP
